SUMMARY

MCA Final Year student with hands-on experience building full-stack and AI-powered applications using Java, Spring Boot, React.js, and REST APIs. Completed a 3-month on-site Java Developer internship and an IBM-certified Front-End internship. Proficient in MySQL, PostgreSQL, Redis, Docker, and Git-based CI/CD workflows. Seeking Software Development Engineer or Java Backend Developer opportunities.

SKILLS

Frontend: React.js, Redux, JavaScript, HTML5, CSS3, Tailwind CSS, Axios

Backend: Spring Boot, Spring Security, Spring Data JPA, REST APIs

Database & Cache: MySQL, PostgreSQL, Redis

Tools & Platforms: Git, GitHub, IntelliJ IDEA, VS Code, Postman, Vercel

Concepts & Others: OOP, System Design Basics, Hibernate / JPA, JWT Authentication, Data Structures & Algorithms

PROJECTS

Smart Email Assistant - Java · Spring Boot · WebFlux · Gemini API · React.js · Bootstrap · Maven - 2025

[GitHub](#)

- Built a Spring Boot backend with 3 AI-powered endpoints that process and classify emails, reducing manual response drafting time
- Used Spring Web MVC to handle email ingestion, classification, and response generation pipelines.
- Integrated Gemini API to generate AI-powered summaries and tone-adjusted email replies using prompt engineering.
- Developed a React.js AI Composer frontend enabling users to draft, adjust tone, and send replies seamlessly.

Task Management Application - Java · Spring Boot · Thymeleaf · MySQL · Bootstrap - 2026

[GitHub](#)

- Developed a full-stack task management app with Spring Boot REST backend.
- Thymeleaf server-side rendering, and MySQL for persistent storage.
- Implemented task prioritization, due date tracking, and JWT-based user authentication with optimized database queries.

EDUCATION

Master of Computer Applications (MCA) - 7.5CGPA

2024 – 2026

Dr. APJ Abdul Kalam Technical University, Lucknow

Bachelor of Computer Applications (BCA) - 7.3CGPA

2021 – 2024

Dr. MPS Memorial College — Dr. Bhimrao Ambedkar University, Agra

EXPERIENCE

Java Developer Intern

Mar 2026 – Jun 2026

Spark venture LLP – New, Delhi

- Designed and maintained MVC Architecture-based backend services for 3 production modules, ensuring clean separation of concerns across 10,000+ lines of codebase.
- Reduced page load time by 30% through lazy loading, component optimization, and database query refactoring.
- Debugged and resolved 20+ production bugs in real-time; collaborated with senior developers on code reviews using Git branching strategies and pull request workflows.
- Participated in Agile sprint planning and daily standups, delivering features on a 2-week release cycle.

Front End Web Development Internship

Aug 2025 – Sep 2025

IBM Skills Build (AICTE)

- Built reusable React components reducing UI duplication and improving page maintainability.
- Developed interactive dashboards with real-time data visualization by integrating REST APIs and managing global state with Redux.
- Practised collaborative Git workflows including feature branching, pull requests, and merge conflict resolution.

CERTIFICATIONS

- Hackathon Participate — Flikt Technology Web Solutions (Jan 2026)
- IBM SkillsBuild — Communicating with Impact (Aug 2025)
